Product conformity is of paramount importance. Safety and responsibility for environment begins at the design stage of each product, the specification of materials and components, right through to the production method. We strive to supply you with a safe product and one that conforms to all regulations.

CE Mark Meets EU health, safety & environmental protection directive requirements.

CE Mark Meets EU health, safety & environmental protection directive requirements.

WEEE Waste Electrical & Electronic Equipment Directive reduces the amount of electrical and

electronic equipment being produced and encourages reuse and recycling. For the product's after life, please take it to designated collection points, where they will be accepted free of charge. Alternatively, in some countries return items to your local retailer upon the purchase of an equivalent new product.

RoHS Restriction of Hazardous Substances. Minimises the environmental impact of waste electrical and electronic equipment (WEEE) by reducing the quantities of four heavy metals and two brominated flame retardants. Specifies allowed limits of lead, cadmium, mercury, hexavalent chromium, polybrominated biphenyls (PBB) and polybrominated diphenyl ethers (PBDE).

EMC (Electromagnetic Compatibility Directive) The EMC directive limits electromagnetic emissions from equipment in order to ensure that, when used as intended, such equipment does not disturb radio and telecommunication, as well as other equipment. The directive also governs the immunity of such equipment to interference and seeks to ensure that this equipment is not disturbed by radio emissions, when used as intended.

Triman Label Indicates that used packaging should be sorted. Additional icons show how to recycle.
